تستهای احتمالی

1.Nurses should ……the necessary patience and tact to do their job well.
a)avoid b)possess c)contain d)establish

2.Some sounds cannot be …..by the human ear.
a)determined b)supplied c)detected d)dislocated

3.The findings were…..;the researchers could not find any solution to the problem.
a)inconclusive b)convincing c)persuasive d)definite

4.Nothing can ……what she lost during the war.
a)accumulate b)aggregate c)conform to d)compensate for

5.The symptoms were ……..; so the doctors could not diagnose what the disorder might be.
a)sufficient b)inadequate c)acute d)mild

6.A community in which health care is …..only rich people can have access to it.
a)rehearsed b)purchased c)prompted d)rendered

7.If wealth is ……evenly, poverty will come to an end.
a)distributed b)modified c)accumulated d)supplied

8.The …….growth in the patient's body resulted in his death.
a)mild b)rough c)morbid d)benign

9.Once the medical examination had …….that there was nothing seriously wrong with me, I felt much better.
a)recognized b)determined c)diagnosed d)distinguished

10.Is health or wealth the main ……..in following a happy life?
a)observance b)obstacle c)determinant d)barrier

11.Although his family were very worried, the patient ……the disease with great determination.
a)confronted b)scared c)impaired d)prolonged

12.you had better ……a doctor about your rash.
a)threaten b)endanger c)convince d)consult

13.Their enthusiasm might work to their ……., because they do not consider the problems.
a)benefit b)quality c)merit d)disadvantage

14.Most people don't want their children to ……..drug addicts and alcoholics.
a)withdraw from b)disapprove of c)associate with d)refrain from

15.In this article the author tries to ……different aspects of health.
a)deal with b)pick up c)carry on d)meddle in

SHAHREZA

16.It is beneath human ……to live in dirty slums.
a)decency b)appropriateness c)precision d)significance

17.The doctor advised the patient to keep his …..of energy as low as possible if he wants to recover more quickly.
a)exploitation b)expenditure c)perseverance d)utilization

18.He is suffering from a ……..illness and may die very soon.
a)vital b)curable c)mild d)desperate

19.Certain individuals may be deemed not criminally responsible because of their mental condition- their ……. .
a)characteristic b)insanity c)dependency d)behavior

20.The power ……..is unevenly distributed in health care because physicians largely control entry into the system.
a)ratio b)rank c)rate d)range

21.In some ……..the mortality rate of babies is markedly higher than that in other areas of the country.
a)settings b)districts c)wards d)departments

22.He was fined for driving while …… .
a)excited b)intoxicated c)withdrawn d)ashamed

23.He drank too much and was ……..alcoholic beverages.
a)surprised at b)misguided by c)bemused with d)amazed by

24.The doctor worked ……., letting nothing too distract her.
a)persistently b)abortively c)obviously d)occasionally

a)overtly b)deliberately c)mentally d)attractively

26.Because of their religion, there are certain ……..on their behavior.
a)stricture b)reports c)requisites d)expressions

27.His clothing was ……..by radioactive material.
a)detected b)contaminated c)disturbed d)absorbed

28.The driver lost a lot of blood as a result of the accident so he was sent to hospital for a …… .
a)transfusion b)perfusion c)complication d)transmission

29.The rate of the occurrence of the disease in the first three months of this year has been three times higher than that in the ……..period of last year.
a)characterized b)concerned c)deprived d)corresponding

30.Eye specialists suggest that direct light is more suitable for the eyes than ……light.

a)diffused b)bound c)applied d)stored

31.Chemical transmitters are ……transmitting the impulse to the next nerve cell.
a)conducted by b)concerned with c)released by d)limited by

32.Infraction is usually caused by the ……of blood vessels.
a)blockage b)transmission c)inactivation d)pathway

33.Antibodies can occur as soluble proteins in the circulation, or they can be ……on the surface of B cells.
a. dissolved b. expired. c. excised d. exhibited

34.The invention of stethoscope was a/an……in the history of medicine.
a)instruction b)feedback c)constituent d)milestone

35.The patient ……his teeth and refused to move.
a)dislocated b)clenched c)followed d)treated

36.The complement system ……a number of small proteins that are synthesized by the liver and circulate in the blood as inactive precursors.
a. comprises b. invades c. induces d. consists

37.Due to long periods of hospitalization, multiple ……..appeared on her back.
a)lesions b)pressure c)patches d)scans

38.Apart from the recent accident, he underwent a/an ……life and died happily.
a)nocturnal b)bitten c) strangled d)uneventful

39.The injured person was ……hours after the accident.
a)dazed b)defective c)average d)clenched

40.Invasion of the body by bacteria ……the inflammatory response.
a. releases b. resists c. triggers d. moderates

41.Spontaneous bleeding due to a non-traumatic liver……is a rare occurrence, but it is associated with high mortality.
a. removal b. rupture c. excision d. incision

42.During flares of Crohn disease, the mainstay of treatment remains high-dose corticosteroids to ……. inflammation nonspecifically.
a. suppress b. rupture c. elicit d. augment

43.Passive immunity is the short term immunity which ……..the introduction of antibiotics from another person or animal.
a. give rise to b. result from c. contributes to d. refrains from

44.Liver cancer is the most acute ……of chronic HBV infection.
a. reaction b. crisis c. diagnosis d. complication

SHAHREZA

45.T cells ……..receptors related to antibody molecules by which remain cell-bound.
a. bear b. result in c. generate d. arise from

46.The primary function of all antibodies is to bind to the antigen, which can ……inactivation of a pathogen.
a. take over b. result from c. give rise to d. call upon

47.During the physical examination, the physician was unable to ……any ill response from the patient's heart.
a. anticipate b. evade c. disperse d. elicit

48.Some genetic polymorphisms ……an advantage over infections; the most well known example is sick cell trait and protection against malaria.
a. resume b. insert c. derive d. confer

49.This series of conferences is intended to broaden ……..of clinicians.
a. horizons b. traits c. specimens d. hives

50.Surgeons believe that he is suffering from a vastly developed carcinoma and he has had no luck ……
a. whereby b. whatsoever c. whereon d. whenever

51.The discovery of penicillin was a/an ……..in the history of medicine.
a. landmark b. emblem c. puncture d. outcome

52.Parasitic worms have adapted to ……the host at mucosal surfaces, notably the gut.
a. inhibit b. inhabit c. multiply d. facilitate

53.Being stuck with infected needle is one of the ways of ……HCV.
a. challenging with b. suspecting c. managing d. catching

54.Hepatoma is no longer the problem it was in some parts of the world; this has been ……through vaccines that prevent transmission of hepatitis B virus.
a. transormed b. committed c. responded d. accomplished

55.The immune system is able to cope with great diversity in the non-self structures by ……the foreign antigen and creating a diverse repertoire of antigen receptors or antigen recognition molecules.
a. ingesting b. evading c. restoring d. anticipating

56.I tried to …….the kind of questions the doctor might ask me at the interview.
a. stick b. suppress c. provoke d. anticipate

57.The extraordinary specificity and affinity of antibodies have ……. their widespread use in diagnostic testing.
a. called upon b. led to c. resulted from d. taken over

58.He was hospitalized because his illness was in a/an……stage.
a. potential b. critical c. anaphylactic d. abnormal

59.If bacteria are coated with antibody, the likelihood that they will be engulfed by phagocytic cells is ……..
a. circumscribed b. enhanced c. curtailed d. inhibited

60.The scientists are doing their best to come up with a practical solution to eradicate COVID-19, which is a real……
a. sequence b. subunit c. menace d. domain

61.It is because of the high…….. between them that these bacterial proteins bond to the human molecules.
a. conformation b. speculation c. territory d. affinity

62.After about two weeks of……symptoms begin to appear.
a. incubation b. complication c. emergency d. competency

63.It is crucial to……the used instruments in hospitals hygienically.
a. acquire b. dispose of c. contract d. dissect

64.Dr. Smith opposed the safety and efficacy of the drug…….. but later he changed his mind.
a. initially b. feasibly c. tropically d. consequently

65.Five retrospective studies employing life events interviews specifically examined the role of independent stressors in……of manic episodes.
a. comorbidities b. onsets c. territories d. receptors

66.Health authorities should foster good practice by…… relevant health information.
a. suspecting b. investigating c. disseminating d. converting

67.As the results of these medical tests have been …… we cannot rely on them.
a. invaluable b. confirmed c. determined d. inconclusive

68.The……. of this drug constricts the blood vessels, so less oxygen is carried to the organ.
a. assessments b. indication c. administration d. synthesis

69.Immigrants entering Britain from Africa are put in…… to prevent the spread of EVD.
a. hospital wards b. jails c. clinics d. quarantine

70.As these vaccines could protect monkeys from EVD, they are the most…….ones that can be used in people infected with Ebola.
a. promising b. invading c. impeding d. confiding

71.Scientists' clinical tests are still……. to find a vaccine that can immunize humans against EVD.
a. embalming b. ongoing c. contaminating d. shedding

72.Blood samples of infected cases should be……with special caution to the clinical labs.
a. imported b. combined c. handled d. contacted

73.To……the diagnosis of the affected cases, their blood samples will be tested.
a. impede b. suspect c. convince d. confirm

74.The ……rate on our roads has been increasing and more than 25000 people are killed by car accidents yearly.
a. fatality b. morbidity c. necropsy d. burial

75.Some viruses are able to…….very tiny genes only and do not trigger unexpected response, so they are not used in our research.
a. accommodate b. develop c. explode d. pursue

76.Nuts can ……..violent allergic reactions in immunocompromised patients.
a. inactivate b. eradicate c. trigger d. ameliorate

77.The therapists are trying hard to find a way to……the patient's paralyzed limbs, so that he can work independently.
a. remobilize b. jeopardize c. recategorize d. summarize

78.MS is one of the …….diseases that progressively deteriorates and causes loss of function in the organs.
a. regenerative b. promotive c. infective d. degenerative

79.Purchasing medical appliances from foreign factories is too costly these days due to the …….prices.
a. soaring b. competing c. evolving d. declining

80.The clinician was appreciated for his new discoveries and unique approach to curative medicine; they are considered a/an ……. treatment.
a. heart-breaking b. ground-breaking c. back-breaking d. jaw-breaking

81.The hospital manager will never do anything to …….. his career. He is so considerate and careful in his job.
a. promote b. deliver c. jeopardize d. generate

82.We have recently started the hospital building project…….. we are not still definite about its procedure.
a. ethically b. dramatically c. therapeutically d. tentatively

83.Professional……..is so important that every academician should try to be honest and have strong moral principles.
a. instrumentation b. integrity c. security d. magnification

84.The patient insisted on……..the physicians and nurses, so he decided to be voluntarily discharged.
a. associating with b. being aware of c. being rid of d. involving in

85.The patient's family members were …….in bringing about an end to his suffering; of course, the treatment team helped them in curing him.
a. proliferative b. instrumental c. dynamic d. tentative

86.The choice of treatment will largely be …….by what the GP advises the patient.

a. reliable b. dictated c. incorrect d. ignored

87.The infections forced the doctors to halt the boy's chemotherapy treatment for almost two months, which increased his risk for ----------and lowered his survival rate.
a. relapse b. toxification c. accusation d. instability

88.The addition of a/an……to a vaccine can result in a significant increase in its effectiveness.
a. burden b. placebo c. attenuation d. adjuvant

89.Diseases or injuries of the nervous system in adults can cause the re-emergence of involuntary or reflex……leading to urinary incontinence.
a. communication b. multiplication c. micturition d. Penetration

90.A patient whose staging investigations confirm a small primary cancer which……his larynx may well be successfully treated with radiotherapy.
a. Is metastasized to b. is confined to c. has invaded d. has penetrate

91.For ovarian cancer and endometrial cancer, tobacco does not seem to ------- risk for the former but seems to increase the risk for the latter.
a. outweigh b. characterize c. resemble d. pose

92.Faulty or inadequate diet……..one to sickness.
a. disposes b. interconnects c. dysregulates d. degrades

93.The majority of lung cancer patients experience a--------after first-line treatment, as the disease commonly develops a resistance to treatment.
a. relapse b. remission c. positive emotion d. favorable prognosis

94.The results from sub-group analyses can facilitate the ……of therapy to suit the pattern of disease on an individual basis.
a. exacerbation b. preservation c. lessening d. tailoring

95.Some…… care centers are needed in Iran to optimize the quality of life and mitigate suffering among terminally ill patients and their families.
a. anaphylactic b. outpatient c. palliative d. degenerative

96.The status quo can offer only minute……..improvements in the health care system, but we would question whether these are enough.
a. invaluable b. incremental c. noticeable d. significant

97.The issue of euthanasia has often been the subject of intense public…..
a. consent b. confusion c. debate d. misperception

98.Teenagers have the….. for having the worst eating habits. They may skip a meal or eat fast food.
a. reputation b. contribution c. quality d. credit

99.Blood route transmission can be prevented through…… screening of blood and blood products.

a. distinguished b. questionable c. meticulous d. ultimate

100.Misdiagnosis and delayed diagnosis account for a large percentage of medical ……complaints.
a. malformation b. malpractice c. miscarriage d. mismanagement

101.Early in the Middle Ages,…….of the human body was performed neither in Islam, nor in Christian lands. It was believed that cutting a dead body was a capital sin.
a. assessment b. examination c. inspection d. dissection

102.Personal problems experienced by students may……..their work in a long run.
a. impinge on b. contribute to c. fall under d. operate to

103.The investigation will ------ the malpractice in the hospital during the recession years.
a. engage in b. inquire into c. respond to d. incorporate into

104.Nobody can deny that it was Dr. Smith's good manners that……his popularity.
a. aimed at b. resulted from c. took into account d. accounted for

105.We should be …… grateful to all the people who make us happy.
a. profoundly b. generously c. affirmatively d. severely

106.I am…….the fact that "God won't give me anything I can't handle".
a. indifferent to b. ignorant of c. cognizant of d. impartial to

107.A meeting was arranged to discuss……changes in policies in the hospital and the deficiencies likely to arise in future.
a. randomized b. deflated c. prospective d. retrospective

108.The operation field should be ……..so that the surgeon can see the operation area very clearly.
a. illuminated b. inflamed c. inserted d. prioritized

109.Growth hormone is…….the blood during sleep.
a. viewed through b. released into c. converted into d. pierced through

110.The patient was relieved when she felt that the pain was……
a. fluctuating b. exacerbating c. rising d. receding

111.Surgeons need manual --------- to perform well during an operation.
a. labor b. instruction c. dexterity d. profession

112.The chance of……..tissues is much less in laparoscopic surgery.
a. manipulating b. converting c. inserting d. perforating

113.The surgeon assured the patient that the postoperative pain was ----- and there was no need for sedatives.
a. transient b. persistent c. substantial d. sustainable

SHAHREZA

114.Due to the patient's severe poisoning, the doctor prescribed a drug that is able to ….. toxins…….his body.
a.eliminate/from b. contribute/to c. form/into d. illuminate/in

115.Blowing or breathing air, vapor, or gas into or through the body is referred to as …..
a. infiltration b. sufflation c. inflation d. deflation

116.Our physicians are not motivated by money……..they might have quit due to low salary.
a. furthermore b. nevertheless c. otherwise d. although

117.The workers in that factory are at risk due to……asbestos.
a. insufficiency of b. suppression of c. indication for d. exposure to

118.A surgical cut made in the skin or flesh is known as -----.
a. operation b. incision c. abscess d. excision

119.In spite of great medical advances, infections are still the…..in some parts of the world, particularly, in the poor countries.
a. invader b. defect c. persistence d. scourge

120.The era of digital development has witnessed a lot of ……. in the field of medicine, in both diagnostic and therapeutic procedures.
a. Innovations b. principles c. pioneers d. exposures

121.A simple safety measure for everyone to avoid the transmission of infection is to…… their hands thoroughly.
a. disperse b. duplicate c. rinse d. expose

122.The shocking news caused her to collapse, but little by little, she began to ……
a. revive b. degenerate c. deteriorate d. revile

123.There have been many pioneers in the field of medicine that were --- because of their new ideas being against the norms of the society.
a. induced b. persecuted c. relapsed d. restored

124.Lister continued his work in spite of being ----- by some of his coworkers.
a. reviled b. promoted c. advocated d. persuaded

125.Not only medicine, but also other fields of knowledge including philosophy, social and technical sciences, etc. did……..under the mediaeval influences.
a. neutralize b. stagnate c. interrupt d. subside

126.Some physicians…… any criticism by their patients; they think they are deplete devalued in this way.
a. deplete b. confine c. resent d. benefit

127.When used properly, personal protective equipment (PPE) acts as…….. a between infectious materials such as viral and bacterial contaminants and one's skin, mouth, or eyes (mucous membranes).

a. clue b. barrier c. disinfectant d. mask

128.There are some physicians who……. their life to serving the patients.
a. conserve b. revile c. revolutionize d. consecrate

129.When an organ or tissue ……. It changes to a lower or less functionally active form.
a. subsides b. revives c. degenerates d. festers

130.Working or living in polluted areas makes people more vulnerable to ……..respiratory diseases.
a. persecuting b. contracting c. stagnating d. inflaming

131.You are just ……..yourself if you think our ailment can be limited without medication.
a)praising b)blaming c)deluding d)amusing

132.To improve our living conditions in future, we have to see where we have gone wrong in …… .
a)prospect b)retrospect c)isolation d)location

133.Some gardens are too dry and shady; not many plants …….in them.
a)thrive b)rot c)burn d)decay

134.The are certain features differentiating a malignant cell from its normal …… .
a)counterpart b)fellow c)supplement d)complement

135.The idea that one's occupation may play a role in the development of cancer is held by ……..all the physicians.
a)potentially b)fortunately c)virtually d)necessarily

136.In spite of vast research all over the world, the treatment of AIDS has still remained an ……problem.
a)improper b)insubstantial c)interactable d)irrelevant

137.……..is the mother of all inventions and discoveries.
a)distortion b)reputation c)curiosity d)violence

138.The act of withdrawing a fluid, such as mucus or serum, from the body by a suction device is known as …… .
a)derivation b)extraction c)distillation d)aspiration

139.He was very rich and kind. So he made a great …….cancer research.
a)donation to b)demand of c)remark about d)list of

140.This device is original in design and well suited to its purpose in medicine. It's a/an ……device.
a)ingenious b)decorative c)misleading d)objective

141.You should increase your roughage intake to prevent …… .
a)contradiction b)complication c)contention d)constipation

142.In cataract, the lens becomes …….as if flooded with a rush of water and thus the amount of light passing through it is diminished.
a)spherical b)opaque c)protruded d)perforated

143.We've got a long way to go before we ……the secret of genetics.
a)mystify b)unravel c)entangle d)perplex

144.The inside of the eyeball is divided into two ……..,the front and back sections.
a)spheres b)cylinders c)capsules d)compartments

145.Muscular dystrophy is a distressing …….disease which makes the patent gradually thinner and weaker.
a)weary b)watery c)wasting d)well-worn

146.Some countries underestimate the significance of observing hygienic measures and …….spread of diseases.
a)thereby b)thereabouts c)therein d)thereafter

147.People with no knowledge or experience of something are referred to as the …… .
a)uninitiated b)underdeveloped c)underserved d)uneducated

148.Having so many ……at the moment, he ignores his family …….completely.
a)parcels b)prizes c)exposures d)preoccupations

149.She is constantly trying to ……my efforts to help her regain her mental health. She is more or less in the same disappointing situation.
a)thwart b)trace c)consider d)value

150.A sensory perception that does not result from an external stimulus is called …… .
a)delusion b)agitation c)retardation d)hallucination

151.He has a rather ……chin which makes him look strange.
a)attractive b)natural c)ordinary d)prominent

152.The parents of the child were …….to hear that she had been found safe and well.
a)elated b)worried c)unsatisfied d)embarrassed

153.Infections cause cuts, broken bones, and diseases to……
a. evolve b. rinse c. persist d. Fester
